- It serves on several boards of directors in order to watch over the interests of its members: retirement, insurance, RREGOP (Régime de retraite des employés du gouvernement et des organismes publics), etc.
- It is present in areas of research and implements innovative research projects in collaboration with universities.
- It gets involved in areas that allow it to defend the rights of workers, notably in matters of salary equity.
- Finally, it plays an active role on the international scene in the fight for quality public services, and against poverty and growing inequalities.
